
"To preach the gospel in the regions beyond you" II Corinthians 10:16

Dear Pastor and Praying Friends,

Thank you so much for all of your prayers for Elena's lung surgery on July 30th. She checked into the hospital in the morning and had the surgery to remove a growing nodule that afternoon. We praise the Lord that everything went smoothly and quickly and that the lab report stated the nodule was benign. Thank you, also, for your prayers for Andrew and the children who all helped out at home. We are grateful that Elena was discharged after 5 days and that the doctor has said that she will be considered fully recovered in a month. In the meantime, despite soreness and numbness in different areas, Elena is healing well and her lungs are functioning normally. **Please continue to pray for the wounds in her side (there are 3) to heal without complication and that Elena would soon be pain free.**

Salvations and Baptisms

We are thankful for 5 baptisms in the month of July. It is always encouraging to see people follow the Lord by stepping out in obedience in this area of their lives. Each candidate had a powerful testimony pointing to a faithful God. **We are also thankful for Chan Chun Wa who recently accepted Christ.** He has been in and out of different churches the past several years but had never made the decision to receive Christ. Andrew talked to him after the service and asked about his church background. What he said was sad but all too common: **No one ever told me how to be saved!** Praise God, his heart was ready and he got saved! We will be starting discipleship right away. **Please pray for his spiritual growth and for him to remain faithful.**

Mrs. Lau

Many have been praying for Mrs. Lau, a woman suffering from leukemia and in need of a bone marrow transplant. We thank the Lord that the hospital found a person in Singapore who was a match and who would be willing to donor bone marrow for Mrs. Lau. We were all rejoicing over this miracle! However, after a recent test, it was shown that the cancer has spread despite being on medication and the doctors here do not think they can help her any more. They have advised her to travel to Beijing, China for a specialized treatment (CAR-T). **Please pray for her finances, as this type of treatment is quite expensive. Please also pray that her body will respond to the treatment and for her husband and 6-year-old daughter during this difficult time.** God is a God of miracles and we know He can do all things according to His perfect will.

*In Christ,
Andrew, Elena, Alexander, Angela, Anthony, and Ashley Au*
