

## National Training

The Lord is expanding the work of *firstBible* through National Training in a tremendous way. By the end of 2018, our teams will have made two trips to India and one to Armenia to help train national pastors, missionaries, evangelists, and their wives.

It has been our vision to come alongside national pastors and leaders to strengthen them through Bible publishing, printed training materials, and doctrinal training seminars. God is expanding our work in India to the bordering restricted nations. We are able to have an eternal influence across these borders through the training of men and women who are able to come into India for a short time and then they take the training and materials back to their people. God is multiplying His work into the Uttermost of the 10/40 window through *firstBible*.

Please ask God what He would have you to do to be involved as we make our 7<sup>th</sup> Training Trip to India in September 2018. (Bro. Randy & Kelly Johnson)

## Special Guest Visit

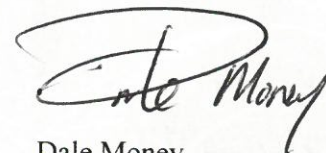

A few weeks ago, Pastor Sitlhou from Northeast India was our special guest. We were able to take him to three churches during his visit. He shared with us how valuable God's Word will be in his own tongue. He stated that without the Thadou Bible, his people are not grounded in the Scriptures. With a Bible in their heart language, they will be able to grow in sound doctrine, while defending against false belief. We anticipate printing their first Bible later this year.

## Amharic Bible

Currently *firstBible* is raising funds for the translation of the Amharic Bible. According to the last census, Amharic has approximately 22 million speakers, and it is the second-most commonly spoken Semitic language in the world after Arabic. *Trinitarian Bible Society* has been working on this translation for a few years now and has published the Gospel according to John in 2015 (printed at *Bearing Precious Seed*). It is currently anticipated that the New Testament will be completed towards the end of 2019, and the whole Bible by 2022. Goal: \$35,000.00 per year for translation cost.

THANK YOU for doing YOUR PART in  
providing Bible-less people their first Bible.

Your servant in Christ,

Dale Money
