30 December 2016

Dear Pastors and Praying Churches,

Happy New Year! 2016 is a great year. God has been so gracious to my family and in the ministry.

### **Thanksgiving**

Our 3 day thanksgiving happens every 3<sup>rd</sup> week of December. It was celebrated with warmth and revival. We ended with 3 baptisms and 4 kids dedicated to the Lord. Most of the preaching was done by our young preachers. It was attended by a hundred people. It is no big deal for other people but in a country gripped by the giant RC for 500 years, indeed God is awesome.

### **Us hun water project**

It is a successful installation of submersible water pump. As soon as the water came gushing out, everybody was filled with joy. I can easily relate how Jesus compared salvation to the living water.

### **Seurtulan outreach**

More than 50 people attended. So happy to see Christians continue to grow and multiply

### **Childrens classes**

The closing program was attended by 70 children from different village with some of the parents attended. I was amazed to note how God has softened the ground for the gospel to freely advance.

### **Training local Church leaders**

It is a long term goal to train local leaders. After much prayer and consultation, we come up to the decision to join forces with our missionary counterparts in Dili, the Capital city. It is the most populous place and is becoming the magnet for everyone who wants to find opportunity for a better life specially the young people. We plan to stay in Dili for three days and 3 days in Manatuto. We Ask you to pray as we travel back and forth every week. Thank you and God bless.
