Hello Praying Partners and Co-laborers in the Ministry,

We thank you so much for your prayers. We had asked for your prayers concerning our Missions Conference this year and God blessed greatly. Each service was attended well and we were praying that God would increase our faith. Well, we were able to go over the goal that we had and are able to take on two new missionary families. This will bring the total to six missionaries that Iglesia Bautista Belen supports.

The children's ministry flourished during the conference as well. They were able to visit Alaska and the Eskimos, then on to Africa and the different tribes. After a stay in Africa they visited Venezuela and saw the culture there, then finally they learned about Danli Honduras where they live because it is a field that needs Christ as well.

In addition to the Missions Conference, we were able to have a Bible Conference as well this year. Placing an importance on the Word of God and challenging us to live lives that are pleasing to the Lord.

As a church, we have a desire to see more churches planted and growing. As of November, New Life Baptist Church has a new building that they can meet in and learn more about the love of God.

The first service in the church saw more than 80 people attend. The Bible Institute students are very involved in this ministry. They help with teaching the Sunday school classes, visitation, and with the normal duties of the church.

God has given great increase as we go out and share the gospel here in Danli. We have seen many professions of faith in Christ over the past couple of months—Praise God! As these new Christians begin to grow they start their new life in Christ in obedience. So, we have had several baptismal services.

This past weekend a couple that were recently saved were baptized and added to the church as members. What a blessing it was to see Fernando and Milagro make this decision together. In addition to the couple, a father and son were baptized as well. Jehovanny and Josue were saved last week and very happy to serve the Lord.

Please pray for our up-coming events. This Christmas we are reaching out to a retirement center, in addition to the local hospital. Many children and hurting families will spend Christmas in the hospital. We are making little gifts for each person.

Merry Christmas!!!
