

December 2018

" And the angel said unto them, Fear not: for, behold, I bring you good tidings of great joy, which shall be to all people." Luke 2:10

Merry Christmas and Blessed New Year! As we close out 2018 we are excited at the prospects that the New Year brings. **Rejoice with us in the blessings of serving Christ in Brazil:**

Blessings of serving with the family. We are blessed to have our adult children serving with us in the ministry. **Seth** has been an asset in the São Paulo church plant ministry. Recently, his fiancé, **Susana** Lima, was accepted as BIMI missionary to serve together in Brazil. They will soon arrive stateside to finish their deputation together as a couple. If you would be interested in having them in your church contact them at sethlundaybrazil@yahoo.com

or watch this short video <https://vimeo.com/153561412> for more information. Our son, **Samuel**, is working in the Maranatha Baptist Temple, teaching in the Christian school and working as administrative assistant for a Christian publishing house, Fundamento Cristao, translating Abeka school material. **Stuart** continues to overcome many challenges with autism and has had many victories in 2018, while on furlough in the US.

Building projects continue. Through **Amazon For Christ** we completed a church plant in Gamboa, a fishing village along the Amazon river near Peru. This church plant led by Pastors Marcos and Hernandez, has been a direct result of the med-evangelism trips in that region. This Baptist Church is the only church of any kind in this village of primarily Tikuna and Jaguar Indians, giving access to the gospel for three other villages.

Guacuri church plant became a reality in March. We remodeled a house, which at one time was a center for spiritist animal sacrifices. The testimony to our neighbors of the power of the gospel has been evident. The church has seen steady growth with souls being saved, disciplined and baptized. Recently we had our first Christmas program with 67 people present for this special service. **We are scheduling Construction Teams for 2019, for those interested in helping with the new church plant.**

Building the church in Ingá has been a challenge, but recently our blueprints were approved by the city and permits granted to add two additional floors to this church.
