August 2022

Dear Fellow servants,

Words can not thank you all enough for your prayers on my behalf.

Since my last letter I had a go around with covid BA 4. Recovery was faster this time. Just now I am struggling to arrange an orderly schedule of doctor appointments and reporting to churches. In September I need to have some cataract surgeries that should improve my night driving. Also we are investigating the cause of a long time knee injury. One good report is that my blood work is almost normal again after years of some unknown bug that I got in New Guinea.

The airplane is any day now due at Port of LA. Where Paul Bach will put it onto a trailer and take it to Oshkosh for re-assembly and certification before going to Alaska. We are in need of a Cessna 185 float plane kit for it. Pray about that.

Ask the Lord for the salvation of several of my local friends. Also, for the calling of a good pastor for Pleasant View Baptist Church near Republic, MO.

Shalom,

Jungle Jim
