08 July 2021

Dear Pastor, Churches and praying Friends,

As we all pray that things will go back to normal life, the advent of another COVID variant leaves me shaking my head. I was later convinced that this uncertainties will bring us closer to Gods presence than meddle to political and medical bickering whatsoever. Praying that all of you is well.

The world was worried about economic downfall and recession however there is always hope to recovery but when a lost soul died and go to hell then it is hopeless. Truth is we cannot prevent people from dying because there are travel restriction. Since January travel restrictions and lockdowns has hampered our movement and ministry operations.

Just one soul

This year was the lowest turnout. One soul since January has followed the Lord in water baptism. Manatuto has seen the highest transmission of virus in May. Many people from the districts who were trapped by the lockdown in the Capital city find their way unchecked thru the bushes brought the virus to their villages. The extensions of lockdown has not been lifted up for the last 18 months and is getting worst. The locals refuse to be vaccinated as the MoH fail to convince the public the purpose of the vaccine. The tally told us that there are 21 dead in the whole country.

The Us-hun outreach.

The work must continue despite the setbacks. The good thing is that most of our outreaches were located before the composite checkpoints and therefore we don't have to go thru needed swab tests. The work Pastored by Carlos Soares bore fruit. We started the foundation for the church building when the 3 day public school holiday in June. That was so timely the church members agreed to help building the foundation .Its decisive as we know everything is scarce during pandemic.

**Us-hun Building foundation(background: National highway)
Please continue to uphold us in your prayer. Thank you.**

Baptism in May
