05 January 2023

**Dear Pastor and Praying Churches,
Shalom!**

Year 2022 for me is difficult to rate. To be honest, I've got a failing grade. I can all just pray that I can do it better again in 2023. In this last quarter was the least exciting to note as was plagued with so much physical pain. From severe bronchitis to acid reflux and influenza and sinusitis. The worst was the accident with a high speed cutter that cut totally my left Achilles tendon.

Leave of absence

As many works are undone and become so preoccupied with ministries and priorities, I forgot to think about my limitations that take a toll on my health. It is all about physical infirmities that has been unattended for many months or maybe years. Many of these were just ignored and hoping I can shake it off after few months and instead it is accumulating and getting worse. After all I feel that this is the lousiest of all my newsletter as I may just tell you concerning my health. Most of my worry is centered upon the possibility of limping the rest of my life. As per advice I have to look for an orthopedic doctor to take a look at how I could possibly walk normally again. I am asking all dear partners to pray for me as I take at least one month leave of absence.

Yours truly while in emergency room @ Guido Valadares National Hospital, Timor-Leste

We rejoice with you all having crossed over another year. I am forever grateful for your partnership and staying with us even when some of you were never been met. Thank you Pastor and Churches for trusting us to represent you here in Timor-Leste.

His servant and yours,
Ferdie Flores
