

BOB C. GREEN, D. MIN. Hispanic Ministries Representative and Aviation Ministries Director
bgreen@bimi.org

April/May 2022

Dear Friends in Christ:

We appreciate so much your friendship and fellowship in the Lord. HE has been gracious to bless again in recent days.

A special blessing received was the opportunity to preach in the 25th Anniversary of the Iglesia Bautista Internacional of Astoria, New York City. This church was founded and established under the leadership of Pastor Jose Saravia and his wife Ligia. They are from the Tabernaculo Bautista of San Miguel, El Salvador. They trusted Christ in the years when Patsy and I were establishing the Tabernaculo. They have been very faithful and greatly used of the Lord. On Sunday of the conference Ligia was able to lead a young Hispanic woman to Christ. God is faithful to bless His Word and their efforts.

Missionary Adam Fridenstine is editing the 14 lessons on **Planting Autonomous Churches** that I recorded in these days and will be putting them online for several seminary students from Cojutepeque, El Salvador, to study as a part of their seminary training. God is also blessing the Fridenstines in their church planting ministry and efforts to train laborers for the harvest. Of course, it is a great privilege to be able to record these Spanish materials to help with the training of national ministers.

Lord willing, as BIMI Aviation Director, I will be going down to Sylacauga, Alabama, to speak the 2nd and 3rd of June to some young men interested in and training as pilots, in the **Aero Missions** ministry of Jon Stanczak. Though the ministry of using aviation as a tool in evangelism and church planting is changing, there is still a need for missionaries that have these skills. **PRAY!**

Thank you again!!! Please pray the Lord will bless.

Your missionaries to Hispanics...
