

NOV 21 - JAN 22

DEAR SUPPORTERS,

HAPPY NEW YEARS!!!! Can you believe it is 2022? With all that has happened in 2021. There is still lots to do for Christ in this new year. To start 2022, I must pack up my stuff to move 6 hours away from Soroti and the orphanage toward Kampala to start working with Missionary families Dwires and Applegates in the Wakiso area at Faith Baptist Church. I am looking forward to seeing how God will use me there for His honor and glory. Lord willing, I will continue the Tororo Women Conferences in which the first will be in Mar. It is still my desire to try and do this conference three times a year.

IN NOV AND DEC, I got the opportunity to visit Rota Spain, BETHEL BAPTIST CHURCH, where I was saved at 2100, 13 Feb 1983, Sunday! The church is still there and thriving for Jesus! It is not in the same location, but it is there. Missionaries Michael and DeAnna Staley have taken over the work as of the beginning of 2021. This is a Military Ministry of BIMI as well as there is also a Spanish Church that meets in the building too. The military men and women were all new to me, but I met many of the Spanish families for the first time in 2018. I was able to participate in both church services. However, I do not know enough Spanish to understand the people, yet I enjoy being with them, even when they invited me to go to other church meetings, I went. All I know is the preachers preached God's Word, I heard Hallelujah and Amen! Those words I understood and most importantly, their love for Jesus radiated for Him! I really wanted Jesus to do an Acts 2, for me, but He did not. However, at times I did have a translator that helped me during the preaching time.

Military Church with Missionaries STALEY to the right and back, the church building, Spanish church members, and the giant Christmas tree in Rota, FELIZ NAVIDAD.

I am looking forward to preparing my calendar for this year with Universities and churches remaining in Kaberamaido and Dokolo to visit, Lord willing. I am not sure how things will work for Mondays, visiting St. Pius Vocational Institute. I can continue while I am still in Soroti and do not mind returning at times when I depart. I just have to work through it all with Simon, the Director, and the other things that I will be doing at Faith Baptist Church.

SCHOOLS REOPENED in January. And there is no more curfew. It was 0530-1900.

Because of Him,

Linda Green
