## From Your Heart To The World....Hope Is Born

Horizon Of Hope Ministries Romania/Haiti Dr. Marvin Lane

### Praising God Through The Pandemic

#### God provides even in a Pandemic.

This pandemic has brought severe economic problems especially to poorer countries such as Romania. Yet, God has graciously touched hearts here in Oradea, Romania to help care for our children. Our food supplies is greater than ever before. Through the generosity of God's people, we have not had to purchase any main staples.

#### A small village church donated all the wood for our furnaces.

In the cold harsh winters, we typically spend about 5,000.00 dollars on firewood. This winter, a small country church cut the firewood and delivered to the Village of Hope. It is so inspiring to see such an act of sacrifice. We were humbled by their love for our children. **If you have faith and friends, you don't need finances!**

### Bringing Siblings Together

One of my greatest joy of our children's ministry at the Village of Hope, is keeping siblings together. Whether it is abandonment or an abusive situation our goal is making sure the siblings are not separated. Such was the case with these dear children. The support that they are able to give each other is instrumental for their immediate and long term adjustments. All they have is each other. We are there to love and care for them, but nothing can replace family.

#### *Farewell to a gentle man*

Stefan pictured here with Maria (Aurora's Mom) went to be with the Lord on February 13th. He was the "grandpa" to the children.

**Extra Rice is purchased to help feed the widows.**

**James 1:27** \* Pure religion and undefiled before God and the Father is this. To visit the fatherless and widows in their affliction.. \*

One of the most heartbreaking things to experience is seeing frail elderly women that are needing food and not having enough rice to feed all of them.

One can dismiss their anguish by saying, 'at least I fed some'. But that is no consolation to me.

Adding to this crisis, Haiti is one of the most densely populated country in the world. Their food production is not enough to feed their population of more than eight million.

Lack of basic nutrition has contributed to disease and a very high mortality rate.

We of course are dedicated not only to help ease their suffering but to share the gospel of Christ.

**Hunger haunts the people of the mountain village of Fond Cheval, Haiti. Starvation is a daily battle. Our feeding center is overflowing with hungry kids. We feed 400 suffering children everyday. Our staff has increased to ten teachers and three cooks.**

**Water crisis with no solution in sight!**

Rain water is the only source of water for the people in our mountain village. We were compelled to build a cistern and have trucks deliver the water. It takes three trucks to fill our cistern.

**Matthew 10:42**

" And whosoever shall give to drink unto one of these little ones a cup of cold water...he shall in no wise lose his rewards."
