December 2021

This Fall IBIN was able to hold its 48th graduation ceremony! This ceremony also marked a significant milestone for IBIN, taking place in its 50th anniversary year.

Enrollment across the 3-year program was great this school year with a total of over 60 students. Of this number, 10 completed the requirements necessary to graduate for this ceremony. It was incredible to see such a great group of graduates and their families come together to celebrate all their hard work over the last several years!

These men and women have been equipped to serve and lead in their churches and communities; we cannot wait to see how God uses each of them moving forward! One man, Jefferson Gil, is

moving into a church whose pastor had to step down because of his wife's health. This is just one example of

how these individuals are going out and applying what they have learned to serve!

Please continue to pray for these individuals as they continue to seek direction from God after

finishing this portion of their education. A few of them, like Jefferson, are looking to serve in or even plant churches in Nicaragua, so pray for them as they follow after various opportunities to fulfill God's calling in their lives.
